

Ready for a Fundraising Breakthrough? Fundraising never looked this good!

We are proud to promote our fundraising partnership with Nerium International, a skincare company whose exclusive products deliver unprecedented results. Through the sales of Nerium International's flagship product, NeriumAD® Age-Defying Treatment, our organization is able to create a new stream of fundraising.

Through the Nerium Funds Development Program, we ask that you consider redirecting your skincare spending to a more effective, all-in-one product that saves you money on your skincare regimen while simultaneously contributing to our cause! When supporters like you order NeriumAD Age-Defying Treatment through our Nerium website, our organization receives a large portion of the profits.

For example, with your help, we can raise \$3000 with just 100 customers and over \$6000 with just 200 customers!

So what is NeriumAD Age-Defying Treatment? It is a high-performance night cream developed from the patent-pending extract of the *Nerium oleander* plant. NeriumAD contains the most effective age-defying ingredients, chosen for both their individual and synergistic benefits. These premium ingredients are blended at optimum levels to nourish your skin and provide real results. These kinds of results are exclusive to Nerium International, as they are the only company to ever harness the power of the *Nerium oleander* plant for skincare. Third-party clinical trials were conducted on NeriumAD via the prominent ST&T Research firm, who used the latest facial scanning technology available in the testing process. Clinical trial results showed that NeriumAD addresses multiple concerns at once, dramatically reducing the appearance of:

- Fine Lines and Wrinkles
- Discoloration
- Uneven Skin Texture
- Enlarged Pores
- Aging Skin

We stand behind this breakthrough product and appreciate your contribution to our cause through your order! And with Nerium's 30-Day Money-Back Guarantee, you have nothing to lose but your wrinkles!
